

It is not what we want for our children;
it is what the next generation **NEEDS**.

Dear Parent,

Here is an opportunity to help your child achieve a matchless mastery of English Language that will enable them to realise their fullest potential and contribute with pride and joy to the building of a better future for all of us.

We have invested our 27+ years of extensive (and intensive) research inputs in SpellBee International, which is successfully entering its 10th year this year.

Our approach has always been strikingly different from the mainstream approach. Applying our unique learning model-S.L.E. (Strategic Language Enhancement), we holistically develop linguistic abilities of all children.

We bring to them the most complex linguistic concepts in the simplest form so that they do not just KNOW words; they also UNDERSTAND what to do with the words.

Children start with the understanding of the science of word formation (morphemes, root words) and the art of pronouncing every word appropriately (phonetics), and keep progressing to word combinations, sentence formations, comprehension, reasoning as they finally peak with Presenting arguments – OURS IS THE HIGHWAY TO HIGH THINKING, once aboard there's no turning back!

With
SpellBee International
as children's
learning partner,
acquiring
encyclopaedic
knowledge is
a joyous journey!

For e.g., In Presenting an Argument (Round 15)-for Chronological Order, a Grade 1 student traces the biography of Walt Disney, whereas a Grade 9 student arranges the order of events during the War of Currents (between Einstein's DC and Tesla's AC).
