ABOUT US

SpellBee International is an educational research organisation which is currently serving 1000+ schools with its English language development products and has certified around a million students on vocabulary development in the past 12 years.

The institution was founded by a team of social engineers and volunteers who are driven by their passion for reformation in the system of education. With two decades of their experience, SpellBee International was launched in 2010 for the empowerment of students so as to equip them with better language skills to acquire encyclopaedic knowledge.

VISION

To make Language Learning a joyous process and thereby help students learn complex subjects in a simple way.

THE NEED

Three-fourths of our children, by virtue of their lack in linguistic competencies, go unrecognised, or worse yet, are misjudged and considered as failures.

In a world where knowledge acquisition is impossible without mastery in language, we have taken it up as our mission to build strong foundational English among young learners.

WHAT DO WE DO?

We **DEVELOP** linguistic abilities in children at the grass-roots level to appreciate, and analyse the role of language in everyday life.

We **SIMPLIFY** complex linguistic concepts so that children not only **KNOW**, but also **USE** the words.

We **ENCOURAGE** systematic learning of the language from the basics: from formation of roots, pronunciation, word combinations, contextual clues, sentence formation, comprehension and reasoning, to presenting arguments and having debates/discussions.

With SpellBee International as their learning partner, acquiring encyclopaedic knowledge is a given!

A Decade of Progress

In salutation to our parents' consistent support, we are launching 2022-23's **Strategic Language Enhancement Programme**.
